

Taking Your Care Management Practice to the Next Level

You've built a successful care management practice and now it's time to take it to the next level. Working with a one-on-one consultant, who has grown a successful practice, will help you avoid costly growing pains by receiving successful recommendations.

Amy Hane, MSW, LMSW, C-ASWCM, started her own practice, Long Term Liaisons, in 2011, because she saw the need in her community. She was encouraged by a colleague to open her practice, but she found herself building it from scratch, without a mentor. Today, there is an ongoing need for new care managers, and Amy is ready to help you grow your practice.

MEMBER

Your journey is unique and Amy will consult with you on your path, where you are now, and where you want to go. She has walked the steps ahead of you, so you benefit directly from her informed guidance.

Amy's passion is sharing valuable information that will help you grow and manage your practice. This type of one-on-one consulting is effective because it quickly answers your pivotal questions for faster success.

Here are some sample topics:

- Financing your business growth
- Staffing, hiring, and human resources
- Documentation, software, and other operations solutions
- Services to provide & how to make a profit
- Agreements and legal considerations
- Insurance requirements
- Marketing both local & digital
- High Yield clients
- What to do when you hit a rut
- Goals for the future
